

secuTrial® DataCapture Welcome Page / Page d'Accueil

English

The Welcome page (1)

You should **NOT** use your browser tool bar to navigate, to disconnect or for screen refreshing. Please use **ONLY** secuTrial options to navigate in the interface (*Logout, Back, Cancel, etc...*)

The screenshot shows the 'Welcome to secuTrial!' page in a browser window. The browser title is 'DataCapture - 4.0.0.10 (CRC) Time left 07:19 - Windows Internet Explorer'. The address bar shows the URL 'https://secutrial.hcuge.ch/apps/WebObjects/ST21-setup-DataCapture.woa/1/wo/zIrDI9UeMf2LMs'. The page content includes a header with the 'secuTrial' logo, user information (Date: 15.11.2011 - 14:20 (CET), Participant: Anne-Sophie Rivier), and a navigation menu with options like 'Overview patients', 'My Account', 'Messages', 'Reports', 'New patient', and 'Select'. A 'Welcome to secuTrial!' message is displayed, followed by instructions for data entry. A 'Download area' contains a link to 'studyX_eCRF's instructions for use'. Several callouts provide additional information: a yellow box at the top explains not to use the browser toolbar; a yellow box on the right says 'New Patient: create a new patient entry'; a yellow box on the right says 'Help Is available'; a yellow box on the right says 'Select: Direct access to a specific patient's eCRF. Thanks to his add-ID.'; a yellow box in the center says 'This Welcome area contains important and most up-to-date information, as well as many references to related resources. You should make sure to read this section carefully.'; and a yellow box at the bottom says 'Study specific documents for the user (in the Download area) You should make sure to read these documents.'.

The Welcome page (2)

Time left before you are disconnected. After 20 minutes of inactivity the system will require you to login again. Be aware that if you are disconnected all non saved data are lost → **save your data regularly!**

My account: configure your account data (your e-mail, phone, address, preferred reports, language, etc.)

Reports: enrolled patients list, progress of the forms and other data reports

Messages: get to this area to access your messages. Message usually signal some specific events (e.g. patient inclusion, withdrawal, etc.) and serve as information exchange between participants.

Depending on the rights you are granted, and the project configuration, you may have access to other options on the upper-right menu, such as:

Mass action: perform batch operations - such as reviewing and validating - per center, all visits, per visit, all forms, rather than form by form.

Import: import data from external files rather than capturing it manually (the project must be properly configured to be able to deal with this option)

Français

Page d'accueil

Ne pas utiliser la barre d'outils Windows pour fermer la fenêtre, ni pour se déconnecter ou la rafraîchir. N'utiliser que les options de secuTrial™ pour naviguer dans l'interface (Logout...)

The screenshot shows the Windows Internet Explorer browser displaying the secuTrial demo interface. A callout box at the top left points to the Windows taskbar and browser window title bar, warning against using them for navigation. Another callout points to the browser's address bar, which shows a certificate error. A central callout box states: "Temps restant avant que vous ne deviez vous ré-identifier. En cas d'inactivité prolongée, il faudra vous ré-identifier. Sauver très régulièrement vos données!". A callout on the right points to the "Logout" link in the top right corner, stating: "Pour vous déconnecter, utiliser uniquement le « Logout »". A large callout at the bottom left points to the main content area, stating: "Cet espace contient des informations importantes, ainsi que de nombreuses références pour des ressources supplémentaires. Veuillez SVP lire ces informations attentivement!".

This screenshot shows the "More resources and documents" section of the secuTrial interface. A red circle highlights the section title. A callout box points to the list of documents, stating: "Documents à disposition des utilisateurs (téléchargeables)". The list includes various files such as "secuTrial Interactive Demonstration", "Help: Utilisation du mot de passe (French)", "Help: Page d'accueil (French)", "Help: Form Overview", "Presentations: Colloque CRC-UIC (11.2012)", and "Presentation: Data Management BPEC (09.2012)".
